

MILAN REVIEW

Above: 'Team light system' from Muvis is the first remote-control system for modifying spotlight directions, intensity and colour of up to 128 lighting fixtures without special wiring anywhere in a given space. Their 'Scudetto' table lamp, by Giugaro Design, features light which can be directed along two axes with a 180°+ range motion. It is made of brushed aluminium, 41 cm wide, 35 cm high and 12 cm deep. The three 50 W halogen spots are white, blue and red

Main picture: 'Marylin', designed by Mario Bellini for Flou, a 'swinging, sinuous' girl's name for a bed with a soft, sinuously shaped headboard, projects cosy use and, on occasion, slow lazy awakenings. The fabric or leather covers are removable, the mattress support is either orthopaedic or with adjustable slats. Only available in king size
